The Accelerated Cure Project for Multiple Sclerosis is a national nonprofit organization dedicated to curing MS by determining its causes.

Our primary effort is the creation of a repository of samples and data from people with MS and other demyelinating diseases (TM, NMO, ON, ADEM) which we make available to researchers in exchange for the return of the data they generate using them. You can find out how to participate in this study at acceleratedcure.org/repository/involvement.php

Accelerated Cure Project provides the following MS resources at no charge:

- **MS News:** One of the most popular, comprehensive, and continuously updated sources of MS-related news available today. It can be found at msnews.acceleratedcure.org.
- **MS Quickstart Guide:** A booklet called, "So you have MS...What's Next?" that tells you all you'll need to know when you or a loved one is diagnosed with MS. Based on the experiences of people with MS, it's a useful place to start your introduction to having MS.
- **Working with Multiple Sclerosis:** A booklet to guide you through the various problems that can crop up when trying to manage a career and a chronic disease.
- **Introduction to Neuroanatomy:** A booklet to introduce you to the basic anatomy of the brain. A helpful overview of terms you will encounter when reading about MS.
- **Multiple Sclerosis Primer:** Provides an in-depth introduction to MS as a disease, how it is diagnosed, and treated, and what's involved.
- **Quarterly Print Newsletter:** Updates relating to Accelerated Cure Project's recent efforts and research.
- **Email Announcements:** Prompt notification of upcoming events, breaking MS news, and the availability of MS related resources.
- **Healthcare Market Overview:** Provides useful information for someone just diagnosed with a chronic disease looking to understand how everything interoperates.
- **Book Reviews:** written by Accelerated Cure Project volunteers about MS-related books.
- **Interviews with MS researchers:** explaining their specific fields of study.
- **Clinical Trials:** links to online resources for understanding and participating in studies.
