

Celebrating 2022!

The ACP newsletter is one of the vehicles through which we keep you informed about MS-related topics, new findings in MS research and the latest news from ACP. We've covered a wealth of information over the last 12 months. For those who would like to revisit any of these subjects, they are just a [click away!](#)

What's New at ACP

As another productive year comes to a close, we would like to express our heartfelt thanks to our partners, donors, and volunteers who have helped us in our work.

iConquerMS is a rich, interactive resource for MS research. In 2022, the network has grown to over 8,500 adults living with both relapsing remitting and progressive MS. [Read on](#) about some of the other milestones the initiative reached in the past year:

Expanding and Enriching the Network

Researching Relevant Topics

Advancing Participant-Driven Research

Disseminating Research Results
