

## Making 2023 a Year of Impact

In November, the iConquerMS governance and other stakeholders in the MS community gathered virtually at the 2022 Leadership Summit to discuss the future direction of the initiative. The key focus of this year’s meeting was deepening our impact. The group celebrated the [progress](#) the initiative has made advancing [participant-powered research](#) (PPR).

On day one, participants divided into stakeholder groups and considered the following questions:

- “What gets in the way of your group fully committing to PPR?”
- “What needs to change so PPR can become the rule and not the exception for your group?”

A number of key barriers to conducting PPR emerged from these discussions.

Day two focused on pursuits that would break down these barriers and further advance PPR.

The Next Steps Committee is focused on carrying these activities forward. We look forward to an exciting and productive 2023!
