

Accelerated Cure Project for Multiple Sclerosis Sample and Data Repository

Sample and Data Pricing Policy January 2023

Per sample prices listed below are for baseline (visit 1) samples. Longitudinal samples (visit 2+, where available) incur an additional 10% sample charge.

The following prices are contingent on acceptance of our standard materials and data transfer agreement terms, including sharing of research results.

Pricing structure (academic and nonprofit users):

Sample/data distribution overhead fee:	\$1,000 per project plus variable charge for data set assembly and distribution (\$125 per hour)
Sample charge for serum or plasma (0.5 ml):	\$60 per sample for first 200 samples; \$30 per sample for additional samples
Sample charge for DNA (1-5 ul):	\$60 per sample for first 200 samples; \$30 per sample for additional samples
Sample charge for PaxGene tubes:	\$125 per tube
Sample charge for frozen PBMCs:	\$125 per aliquot (at least 3 million cells)

Pricing structure (commercial, for-profit users):

Sample/data distribution overhead fee:	\$3,000 per project plus variable charge for data set assembly (\$125 per hour)
Sample charge for serum or plasma (0.5 ml):	\$175 per sample
Sample charge for DNA (1-5 ul):	\$175 per sample
Sample charge for PaxGene tubes:	\$400 per tube
Sample charge for frozen PBMCs:	\$400 per aliquot (at least 3 million cells)

Shipping costs:

All shipping costs are paid by sample recipients.

Prospective collections:

We are happy to discuss conducting prospective collections for sample or subject types not already available in the repository. Pricing for these collections will be determined on an individual basis.

Pricing for data only distributions:

Pricing for data only distributions will be determined on an individual basis.

If you have any questions about this policy, please contact: David Gwynne at 781-487-0010 or dgwynne@acceleratedcure.org.
