

From Discovery to Dissemination

Partner with ACP to Ensure Your Research Reaches and Resonates with the MS Community

Ensure Your Research Makes an Impact

Your research has the power to change lives, but its impact depends on reaching the people it's meant to help. Accelerated Cure Project for MS (ACP) is your expert partner in bridging the gap between scientific discovery and the MS community.

Our tailored dissemination strategies connect your work with people affected by MS, clinicians, fellow researchers, and policymakers—making your findings accessible, understandable, and actionable.

Our Dissemination Packages

We offer several packages to meet your needs. Custom options are also available.

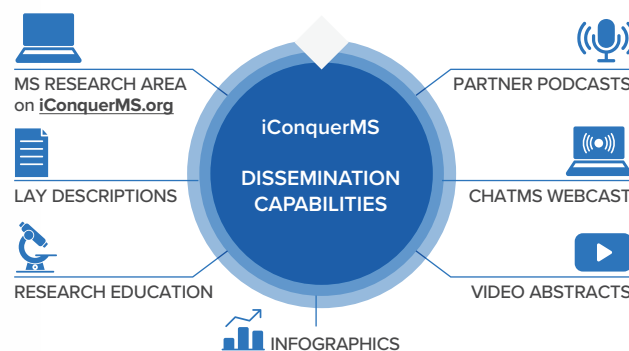

-  **BASIC PACKAGE** (starting at \$3,000)
Includes a feature on our research projects webpage, professionally written and technical summaries, and a shareable infographic.
-  **ADVANCED PACKAGE** (starting at \$7,000)
Includes Basic Package services, plus the creation of custom educational materials.
-  **PREMIUM PACKAGE** (starting at \$12,000)
Includes Advanced Package services, plus additional infographics, a feature in our newsletter, and a guest speaker presentation through our podcast partner or webcast series.

Our Approach: Expert Strategy, Community-Driven Content

We combine proven communications expertise with our deep connection to the MS community to create dissemination strategies that deliver results.

- **Multimedia Expertise:** Our approach delivers research in formats suited to all expertise levels and learning preferences, from lay summaries and infographics to podcasts and webinars.
- **A Comprehensive Strategy:** We ensure all stakeholders can access, interpret, and apply your research effectively, maximizing its real-world impact.
- **Community-Driven Content:** We work directly with people affected by MS and others in the community to ensure content is relevant and meaningful.
- **Commitment to Equity:** We amplify diverse voices and ensure underrepresented communities are included in every step of the process.
- **Real-World Impact:** We help translate complex scientific information to ensure your findings become practical tools that improve care and inform decision-making.

Ready to Amplify Your Impact?

Let's ensure your research reaches the MS community—together. Contact our partnerships team to get started at Partner@AcceleratedCure.org.
